Qualified service providers

Modern and high-performance software applications require a multitude of resources and services. Based on that, Fairmas is dependent on cooperation with external service providers. It goes without saying that we only use selected, professional partners who meet our high requirements for data protection and IT security.

Subcontracting relationships

Fairmas shall cooperate with the subcontractors named below in a subcontracting relationship in order to provide the main service in accordance with the license agreement with the Customer. This cooperation is subject to a contractual agreement in accordance with Art. 28 (2-4) DSGVO.
